Appendix A: Potential strategic schemes for CIL funding 11
Appendix B: Potential local schemes for CIL funding 15
Appendix C: Other proposed schemes 19
Appendix D: Further information in support of ‘potential strategic schemes for CIL funding’ list 26
**Background**

1.1 This infrastructure plan supports the consultation on the Draft Community Infrastructure Levy (CIL) Charging Schedule for Sevenoaks District. It has been prepared through engagement with local infrastructure providers (including internal SDC stakeholders) and town and parish councils.

1.2 The Community Infrastructure Levy (CIL) is a locally set standard charge that can be applied to new development to fund infrastructure. It is calculated in £ per sq m of new development. In order to charge CIL, charging authorities must prepare a Charging Schedule. Sevenoaks District Council is the charging authority for Sevenoaks District.

1.3 The infrastructure plan considers the new services and infrastructure that are considered, by infrastructure providers, to be required to support the level of planned development in the District in the LDF Core Strategy (February 2011). The Core Strategy proposes the scale and distribution of development that will be brought forward in the District to meet a target for 3,300 new dwellings to be accommodated in the period 2006-2026. An assessment of the infrastructure required to support the development proposed in the District was carried out during the preparation of the Core Strategy and the conclusions were set out in the Infrastructure Delivery Plan Schedule (appendix 4 of the Core Strategy). Policy SP9 of the Core Strategy allows the Council to require developers to provide or contribute towards new or improved infrastructure where development creates a requirement for it. This document presents an updated assessment of the infrastructure requirements.

1.4 In preparing infrastructure plans to support CIL Charging Schedules, it is recognised that it is difficult to predict the infrastructure that is required with a high degree of certainty. The guidance and legislation on CIL does not require SDC to commit funding to projects identified in this document once CIL has been adopted. The Council will have the flexibility to spend CIL receipts on any infrastructure project that is considered to be a priority at the time, subject to it being required to support development of the area and it being included on the list of infrastructure types to be funded through CIL. In this way, the Council will be able to provide funding for infrastructure to support development in locations that is not currently anticipated.

**Infrastructure**

2.1 In accordance with the legislation (Section 216 of the Planning Act), CIL must be used to fund infrastructure to support the development of its area. CIL may be used to fund the provision, improvement, replacement, operation or maintenance of infrastructure.

2.2 The Planning Act identifies the types of infrastructure that should be considered for funding through CIL, although the list is not definitive. These are:
(a) roads and other transport facilities,
(b) flood defences,
(c) schools and other educational facilities,
(d) medical facilities,
(e) sporting and recreational facilities, and
(f) open spaces.

The Council proposes that the following types of infrastructure should be funded through CIL:

- Transport schemes except for site-specific access improvements;
- Flood Defence schemes;
- Water quality schemes;
- Schools;
- Health and social care facilities;
- Police and emergency services facilities;
- Community facilities;
- Green infrastructure except for site-specific improvements or mitigation measures.

2.3 CIL should usually be used to provide contributions for infrastructure improvements that serve a wider area than just the specific development site or where more than 5 contributions will need to be pooled to deliver the new infrastructure or improvement. Site specific infrastructure will continue to be secured through planning obligations. The following is a list of the types of infrastructure that will be funded through planning obligations.

- Site specific access improvements (these could also be secured through s278 of the Highways Act 1980 in some circumstances);
- On-site open space, for example children’s play areas;
- Site specific green infrastructure, including biodiversity mitigation and improvement;
- On-site crime reduction and emergency services infrastructure, for example CCTV or fire hydrants; and
- Site specific Public Rights of Way diversions or impact mitigation.

2.4 In addition, affordable housing provision and contributions will continue to be secured through planning obligations.

2.5 Other mechanisms exist to ensure that developers provide sufficient infrastructure or financial payments to ensure that new development is provided with the necessary utilities, including water and sewerage infrastructure. SDC will support the timely provision of the necessary infrastructure. The costs of providing this infrastructure should be taken into account in establishing the viability of development.
Local Development Framework and Development Proposed in Sevenoaks District

Local Development Framework

3.1 Sevenoaks District Council adopted the Local Development Framework Core Strategy for the District in February 2011. The Core Strategy sets out policies on the overall scale and distribution of development and strategic policies that will be used to determine the type of development that comes forward and protect the natural and built environment. The Core Strategy provides for the development of 3,300 new dwellings to be built in Sevenoaks over the period 2006-2026.

3.2 SDC is currently preparing the Allocations and Development Management Policies Plan (ADM Plan). This will identify new land use allocations for housing, employment and boundaries for other land use designations such as the Green Belt and AONB. The allocations will provide sufficient development sites to ensure that the Council can meet the remainder of the target for new dwellings to 2026 (approximately 1200 dwellings).

Development Proposed in Sevenoaks District

3.3 The adopted Sevenoaks District LDF Core Strategy plans for the development of 3,300 dwellings in the period 2006-2026. SDC’s most recent Annual Monitoring Report sets out the housing land supply position within the District at 31 March 2012, which is summarised below.

<table>
<thead>

<td>1360</td>
<td>593</td>
<td>403</td>
<td>1284</td>
<td>3640*</td>
</tr>
</tbody>
</table>

* Subject to rounding.

1360 additional dwellings had been completed in the period 2006-2012. A further 970 additional dwellings have extant planning consent. To meet the remaining requirement, the Council has identified the potential for 879 dwellings to be developed on sites identified in the Strategic Housing Land Availability Assessment which are consistent with strategic Core Strategy policies and forecasts the development of 432 dwellings on small, as yet

† This figure is subject to a non-implementation rate of 10% on sites under 0.2 ha and 4% on sites of 0.2 ha and over. These rates are based on previously identified trends.
unidentified, sites from year 6 of the housing trajectory. This will mean that the Council will have a sufficient supply of new housing to meet or exceed the Core Strategy requirement of 3,300 dwellings.

3.4 The numbers of additional dwellings that are expected to be permitted and developed in the period to 2026 by the housing trajectory in the 2012 Annual Monitoring Report are:

<table>
<thead>
<tr>
<th>Area</th>
<th>Numbers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sevenoaks Urban Area</td>
<td>404</td>
</tr>
<tr>

<td>92</td>
</tr>
<tr>
<td>Rest of District</td>
<td>403</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>1311</strong></td>
</tr>
</tbody>
</table>

3.5 In addition to this residential development, the Core Strategy proposes the development of approximately 4,000 sq m of new retail floorspace in Sevenoaks, the development of 4.1ha of employment land at Broom Hill in Swanley and the redevelopment of Swanley Town Centre.

Population Forecasts

3.6 In most cases, the need for additional or improved infrastructure is likely to result from an increase in population as a result of development, rather than the increase in the number of dwellings itself.

3.7 Kent County Council’s most recent strategy-based demographic forecasts predict that, on the basis of the number of dwellings remaining to be developed over the Core Strategy period in the District, the total population in Sevenoaks District will remain relatively static over the period 2026 (at approximately 115,000).

3.8 Where new infrastructure is required at the local level within the District or a specific new development, for example a new local play area, the requirement will be more closely related to the new population moving into the new development regardless of where they have moved from and of the impact of wider demographic changes.

3.9 Other organisations have taken different approaches to considering the impacts of development on population growth. SDC has reviewed these approaches and included schemes where it is considered that the approach is sufficient to give a broad indication of the infrastructure requirement. The Council will continue to require that sufficiently robust evidence of infrastructure requirements is presented to justify the release of CIL funding.

Infrastructure Planning

4.1 This infrastructure plan was developed following consultation with local infrastructure providers and town and parish councils between February and April 2012. All consultees were sent an information pack that explained the background to CIL, set out the level of development
expected to come forward in the District, set out the population forecasts and explained the information that the Council required in preparing a CIL Charging Schedule. In particular, information was requested on:

- What infrastructure projects are expected to be required;
- Why the infrastructure projects are required as a result of development;
- When the infrastructure projects are expected to be required; and
- The expected cost of delivering the infrastructure and the funding that is already committed to delivering it.

4.2 Information provided to the Council was reviewed and categorised into the three schedules that are set out in appendices A, B and C. These schedules are:

A) Potential Strategic Schemes for CIL Funding

4.3 These schemes are considered to be potentially strategically important in facilitating the scale and distribution of development proposed in the District in the LDF. This may be because these schemes have been identified as required in the Infrastructure Delivery Plan Schedule of the Core Strategy or the background evidence (such as the Open Space, Sport and Recreation Study) or because they are considered to generally support development in accordance with the Core Strategy and the Council’s trajectory.

4.4 The infrastructure that CIL will be used to fund is dependent on where and when development comes forward in the District. Therefore, this list should be treated as purely indicative. Under the CIL guidance and legislation, CIL receipts can be used for other infrastructure projects to support development.

4.5 These schemes have been used to identify a funding gap, which the Council is required to show to justify the CIL charge. Therefore, only schemes that have been costed and for which information on other committed funding has been provided have been included in this list. CIL receipts are unlikely to be available to fund these schemes in their entirety but may be able to form part of packages of funding to meet the identified funding gaps. In calculating the funding gap, the likely cost of providing the infrastructure required post-2014, when the CIL Charging Schedule is expected to be adopted, has been estimated by the Council.

4.6 More information on the background to the schemes identified in the list of strategic schemes is presented in appendix D.
B) Potential local schemes for CIL funding

4.7 These schemes have predominately been identified by town and parish councils in their submissions to SDC. These schemes are considered to be locally important and provide an indication of the types of schemes that town and parish councils may provide through the ‘meaningful proportion’ of CIL transferred to them.

4.8 The lack of inclusion of these schemes in the schedule of potentially strategic schemes does not necessarily mean that town and parish councils will only be able to deliver these schemes using the CIL receipts paid directly to them. SDC may transfer additional funds to town and parish councils to deliver these schemes where they are considered priorities to support development and are in accordance with the list of types of projects to be funded through CIL (see para 2.2).

4.9 These schemes have not been taken into account in identifying the CIL funding gap because their delivery is considered to be dependent on development coming forward in the particular local area.

4.10 Town and parish councils will not be limited to spending CIL receipts on schemes identified in this schedule.

C) Other proposed schemes

4.11 These schemes have been suggested to the Council as those that could be funded through CIL, primarily by town and parish councils. However, they have not been included in the ‘strategic’ or ‘local’ priority lists because:

- more information is required on the scheme;
- they require delivery by an organisation that has not currently indicated a proposal to deliver it (it is hoped that these bodies will respond to the scheme proposals following the publication of this document); or
- they are not considered to be appropriate uses of CIL.

4.12 The lack of inclusion of these schemes in either the strategic or local priority schedules does not necessarily preclude the scheme promoter seeking CIL funding for these schemes if needs change or if further evidence of need or of the specific details of the project to be developed becomes available in the future. The inclusion of schemes in this list may simply indicate that additional information or commitment from another organisation is required. As stated previously, SDC and town and parish councils are not limited to providing funding for those schemes identified in the ‘strategic’ or ‘local’ priority infrastructure lists.

### Status

4.13 In preparing a CIL Charging Schedule, SDC does not need to indicate the infrastructure that CIL receipts will be used to fund in advance. Instead, it simply needs to identify the types of infrastructure that may be required to support development and the additional funding that is required to deliver them. Therefore, the lists provided in appendices A, B and C of this document are purely indicative of the schemes that may be funded through CIL. These lists will continue to be reviewed as priorities change and more evidence is brought forward about the schemes suggested.

4.14 The lists of schemes have been produced following an initial period of consultation with infrastructure providers. Inclusion of schemes in the ‘strategic priority’ list does not guarantee that the Council will view them as a priority and make CIL funding available at the time that development comes forward. Infrastructure providers may be asked to provide evidence to justify a release of funds once CIL receipts are received.

4.15 Once the CIL Charging Schedule has been adopted, Local planning authorities can identify what infrastructure will be funded through CIL so that planning obligations can continue to be negotiated for other infrastructure. In order to do this, charging authorities can publish a list of infrastructure to which CIL will contribute on its website. This list is sometimes referred to as a Regulation 123 list. An indicative list of types of schemes to be funded through CIL needs to be set out at the time of the examination (see para 2.2, above). This does not commit the Council to funding individual projects identified in this plan.
Appendix A: Potential strategic schemes for CIL funding

These schemes are considered to be potentially strategically important in facilitating the scale and distribution of development proposed in the District. They have been used to identify a funding gap, which justifies the CIL charge. CIL receipts are unlikely to be available to fund these schemes in their entirety but will need to form part of packages of funding to meet the identified funding gaps.

Appendix B: Potential local schemes for CIL funding

These schemes are considered to be locally important and provide an indication of the types of schemes that town and parish councils may provide through the ‘meaningful proportion’ of CIL transferred to them. SDC may transfer additional funds to town and parish councils to deliver these schemes where they are considered priorities to support development. These schemes have been identified through consultation with all town and parish councils between February and April 2012 but have not been taken into account in identifying the CIL funding gap because their delivery is considered to be dependent on development coming forward in the particular local area. Town and parish councils will not be limited to spending CIL receipts on schemes identified in this schedule.

Appendix C: Other proposed schemes

These schemes have been suggested to the Council as those that could be funded through CIL. The lack of their inclusion in either the strategic or local priority schedules does not preclude the scheme promoter seeking CIL funding for these schemes if needs change or if further evidence of need or the specific project to be developed becomes available in the future. The inclusion of schemes in this list may simply indicate that additional information or commitment from another organisation is required.

</table>
Appendix D: Further information in support of ‘potential strategic schemes for CIL funding’ list

Urban Traffic Management Control (UTMC)

Location: Sevenoaks Town

Description: A system that allows for more efficient use of the road network through the collation of information on traffic movements, for example, and the ability to share this information on variable message signs and take actions as a result of it, for example changing the phasing on traffic lights. The UTMC can be linked to the county’s traffic management centre (TMC) so that information and actions can be made in real-time and in a non-automated manner. The UTMC could also be linked to air quality monitoring equipment and used to monitor HGV traffic. It could also include real time bus running information.

Responsible organisation: Kent County Council

Relationship to development: The UTMC will allow for more efficient use of the road network and should, therefore, reduce the congestion in Sevenoaks town that may otherwise be exacerbated by development. The development of the UTMC would be a cost-effective means of improving capacity without the construction of additional roads or lanes.

Opportunities to develop a similar scheme in Swanley will also be considered.

Included in Core Strategy Infrastructure Delivery Plan Schedule: Yes (scheme 1.7). More detail on timescale now provided.

Estimated Timescale: 2014-2018

Estimated cost: £540,000 to £690,000 estimated by KCC on the basis of proposals elsewhere in the county.

Committed funding: Currently no funding is allocated to this project. Given KCC’s reduced budget for transport improvements and its approach of directing funding to growth areas and east Kent (as set out in the Local Transport Plan), it is unlikely that significant funding will come forward for this scheme.

Funding gap: Assumed to be £615,000.

Implementation of routes from the Sevenoaks District Cycling Strategy

Location: Sevenoaks Town (and surrounding area) and Swanley:
• Route 1 – East-west route across northern Sevenoaks (£480K)
• Route 6 – North-south route connecting Otford and Sevenoaks - urban and leisure route (£600K)
• Route 7 – Link between the Sevenoaks Railway Station and town centre (£120K)
• Route 13 – Link from existing London Road, Swanley, cycle lane to the to town centre
• Route 14 and 15 – Route connecting Swanley town centre to Swanley Railway station.
• Route 19 – Link to Swanley Station from High Street (£240K for 3 Swanley schemes)

Note: the locations and routes have been chosen to give an indication of the costs of implementing the Cycling Strategy and are considered to be routes likely to support new development.

Description: The Cycling Strategy seeks to improve cycling facilities in the District by signing cycle routes along quiet roads and converting suitable footpaths so that they can be used by cyclists.

Responsible organisation: Kent County Council

Relationship to development: The Cycling Strategy forms part of a wider strategy to encourage use of sustainable modes of transport to reduce the need to travel by car, which is consistent with the Core Strategy and Transport Strategy. Therefore, implementation of the Cycling Strategy should make a contribution to limiting the increase in traffic that may result from new development as well as the additional pollution that this may cause, especially in Air Quality Management Areas.

Included in Core Strategy Infrastructure Delivery Plan Schedule? Yes (scheme 1.9). More information has been provided on locations of routes and costs, following the preparation of the Cycling Strategy.

Estimated Timescale: 2014-2018

Estimated cost: £1,440,000 calculated based on standard costs per m² for installing cycle routes (2.5m wide blacktop path with kerbs and edgings = £151/m; 2.5m wide path with edgings (existing kerbs) = £119/m)

Committed funding: No funding is currently allocated to this project. Given KCC’s reduced budget for transport improvements and its approach of directing funding
to growth areas and east Kent (as set out in the Local Transport Plan), it is unlikely that significant funding will come forward to implement this scheme in its entirety. However, funding from KCC (or another source) will be needed if these schemes are to be delivered.

**Funding gap:** Assumed to be £1,440,000

**Community Fund to support local regeneration projects in Swanley**

**Location:** Swanley

**Description:** Implementation of the Core Strategy proposal to introduce a fund to support the regeneration of Swanley. The aim of the Swanley Community Fund is to promote and enhance community cohesion between residents of the existing and proposed developments and to empower existing residents to access the employment opportunities that new commercial developments will bring. The Council proposes to use the funding to ‘signpost’ residents of new development to community cohesion projects and training programmes by providing additional dedicated time of a Community Development Worker.

**Responsible organisation:** Sevenoaks District Council

**Relationship to development:** Supports the regeneration of Swanley, which is identified as a key priority for the Council in the LDF Core Strategy. The scheme responds to the conclusion of the Sustainability Appraisal, which recommends that new development in Swanley should do more to support the regeneration of the town.

**Included in Core Strategy Infrastructure Delivery Plan Schedule?** Yes (scheme 1.4). Cost updated following the work on the Draft Developer Contributions SPD.

**Estimated Timescale:** 2014-2026

**Estimated cost:** Approximately £201,000 (based on £500 per dwelling over period 2014 – 2026)

**Committed funding:** No funding is currently allocated to this project.

**Funding gap:** Approximately £201,000

**Schemes to reduce the impact of pollution from surface water outfalls on water quality**

**Location:** Sevenoaks District
Description: Identification, design and construction of schemes to reduce the impact of pollution from surface water outfalls on water quality in the District.

Responsible organisation: Environment Agency

Relationship to development: The scheme will address problem surface water outfalls in Sevenoaks District that impact on surface water quality. This would help to offset any impacts of increasing urbanisation, which may lead to increased surface water run off and, therefore, increased pollution.

Included in Core Strategy Infrastructure Delivery Plan Schedule? No. Information on the scheme was provided during the request for evidence for the preparation of the Charging Schedule.

Estimated Timescale: 2015

Estimated cost: £300,000. This is based on the estimated cost for a similar project currently taking place on the River Cray.

Committed funding: No funding is currently allocated to this project. However, a number of potential funding partners are identified. The EA suggests that no less than one third should be funded by CIL or s106 contributions.

Funding gap: £100,000

Edenbridge Flood Alleviation Scheme

Location: Edenbridge

Description: A scheme to reduce the risk of the River Eden flooding in Edenbridge. A decision on the scheme to be taken forward is yet to be made and the Environment Agency is still considering a number of options. The estimated cost is based on a scheme to replace the existing bridge over the River Eden at the southern end of the High Street with a bridge that would not block to the flow of the river during 1 in 100 year flood events. The Environment Agency currently considers this to be the only economically viable option.

Responsible organisation: Environment Agency

Relationship to development: The scheme will reduce the risk of flooding in the existing flood risk zones and reduce the possibility of the flood risk zones extending to cover more of Edenbridge, as a result of climate change or greater urbanisation. The relationship to development will depend on where development
occurs in Edenbridge. However, it is considered that all new development in Edenbridge, whether in a flood zone or not, will benefit in some way from a scheme that reduces the flood risk to key roads, businesses, shops and services.

**Included in Core Strategy Infrastructure Delivery Plan Schedule?** No. The EA raised the potential need for improvements following the completion of the Darent and Middle Medway Strategies but no information was available on the schemes at that stage.

**Estimated Timescale:** Currently unknown. This is likely to depend on the scheme that is chosen.

**Estimated cost:** The scheme that the EA currently considers to be the most cost-effective would cost an estimated £4,500,000.

**Committed funding:** No funding is currently allocated to this project. However, the EA estimates that approximately £1,000,000 may be available from Flood Defence Grant in Aid, based on the Partnership Funding Calculator.

**Funding gap:** £3,500,000.

**Provision of new allotments in Edenbridge**

**Location:** Edenbridge

**Description:** Provision of new allotments to meet an increased demand from new residents and to resolve existing shortages.

**Responsible organisation:** Edenbridge Town Council

**Relationship to development:** Will resolve a forecast deficiency identified in the Open Space, Sport and Recreation Study. The scheme will allow sufficient access to new allotments for residents moving into new developments in Edenbridge.

**Included in Core Strategy Infrastructure Delivery Plan Schedule?** Yes (scheme 6.3). More information now provided on the likely cost of the scheme.

**Estimated Timescale:** 2012 onwards.

**Estimated cost:** £8,000 - £10,000.

**Committed funding:** £1,000

**Funding gap:** Approximately £8,000
Improvements to existing nature reserves in the north of Sevenoaks District

**Location:** Wildlife reserves at Sevenoaks, Fackenden Down, Kemsing Down and Polhill Bank

**Description:** Additional expenditure on paths, signs and gates. Additional expenditure on staffing to ensure facilities are maintained. This will form part of the Darent Triangle project.

**Responsible organisation:** Kent Wildlife Trust.

**Relationship to development:** To provide improved facilities for new residents moving into Sevenoaks District as a result of new development. The schemes will contribute towards improving the quality and accessibility of natural and semi-natural green space, as recommended by the Open Space, Sport and Recreation Study.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** Yes (scheme 6.4). More specific detail on the schemes proposed to improve the green infrastructure network has been made available.

**Estimated Timescale:** 2014 onwards.

**Estimated cost:** £156,000

**Committed funding:** No funding is currently allocated to this project.

**Funding gap:** £156,000

Improvements to existing nature reserves in the south of Sevenoaks District

**Location:** Sevenoaks Commons and Bough Beech Nature Reserve

**Description:** Management and restoration of Sevenoaks Common and improve access for pedestrians and horse riders alike. Provide an extension to Bough Beech Nature reserve and provide a new circular walk and habitat enhancement. Both schemes are part of the Sevenoaks Living Landscape Areas project.

**Responsible organisation:** Kent Wildlife Trust

**Relationship to development:** Funding is sought to cover additional work created by increased footfall in order to maintain a rich attractive and pleasant environment for Wildlife and people alike. The schemes will contribute towards
improving the quality and accessibility of natural and semi-natural green space, as
recommended by the Open Space, Sport and Recreation Study.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: Yes (scheme 6.4). More specific detail on the schemes proposed to improve the green infrastructure network has been made available.

**Estimated Timescale:** 2014 onwards

**Estimated cost:** £130,000

**Committed funding:** No funding is currently allocated to this project.

**Funding gap:** £130,000

### Capacity expansion at Edenbridge Primary School

**Location:** Edenbridge Primary School

**Description:** Provision of additional or enlarged class rooms and associated facilities at Edenbridge Primary School.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional primary school places to meet the increased demand as a result of new development in Edenbridge.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified a need for additional primary school places only in Sevenoaks and Swanley during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £230,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £230,000
Capacity expansion at primary schools in Hartley and New Ash Green and the surrounding area

**Location:** North of Sevenoaks District

**Description:** Provision of additional or enlarged class rooms and associated facilities at primary schools in the areas where development occurs.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional primary school places to meet the increased demand as a result of new development in the north of the District.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** No. KCC identified a need for additional primary school places only in Sevenoaks and Swanley during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £313,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £313,000.

Capacity expansion in 'rural' areas of Sevenoaks District

**Location:** ‘Rural’ areas of Sevenoaks District. KCC define ‘Sevenoaks Rural’ as the following wards:
- Brasted, Chevening and Sundridge;
- Cowden and Hever;
- Crockenhill and Well Hill;
- Eynsford;
- Farningham, Horton Kirby and South Darenth;
- Fawkham and West Kingsdown;
- Halstead, Knockholt and Badgers Mount;
- Kemsing;
- Leigh and Chiddingstone Causeway;
- Otford and Shoreham;
- Penshurst, Fordcombe and Chiddingstone;
- Seal and Weald;
- Westerham and Crockenhill.

**Description:** Provision of additional or enlarged class rooms and associated facilities at primary schools in the areas where development occurs.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional primary school places to meet the increased demand as a result of new development in ‘rural’ areas of the District.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** No. KCC identified a need for additional primary school places only in Sevenoaks and Swanley during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £396,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026

**Funding gap:** Approximately £396,000

**Capacity expansion at primary schools in Sevenoaks Urban Area**

**Location:** Sevenoaks Urban Area

**Description:** Provision of additional or enlarged class rooms and associated facilities at primary schools in the areas where development occurs.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional primary school places to meet the increased demand as a result of new development in Sevenoaks Urban Area.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** Yes (scheme 2.1). KCC identified a need for additional primary school places in Sevenoaks
during the preparation of the Core Strategy. More information on the cost and timing of the scheme has been provided following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £180,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026

**Funding gap:** Approximately £180,000.

**Capacity expansion at Swanley primary schools**

**Location:** Swanley

**Description:** Provision of additional or enlarged class rooms and associated facilities at primary schools in the areas where development occurs.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional primary school places to meet the increased demand as a result of new development in Swanley.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** Yes (scheme 2.1). KCC identified a need for additional primary school places in Swanley during the preparation of the Core Strategy. More information on the cost and timing of the scheme has been provided following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £859,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026

**Funding gap:** Approximately £859,000.
Capacity expansion at Knole Academy

Location: Sevenoaks Urban Area

Description: Provision of additional or enlarged class rooms and associated facilities at Knole Academy to provide additional capacity.

Responsible organisation: Kent County Council

Relationship to development: To provide additional secondary school places to meet the increased demand as a result of new development in Sevenoaks District.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC did not identify a need for additional secondary school places during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

Estimated Timescale: Identified need over the period 2007-2026 (19 years). Cost estimated on the basis of the financial years 2014/15 to 2025/26 (12 years).

Estimated cost: Approximately £2,560,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026. KCC identify this requirement as resulting from new development.

Funding gap: Approximately £2,560,000

Capacity expansion at Swanley secondary schools

Location: Swanley

Description: Provision of additional or enlarged class rooms and associated facilities at Swanley secondary schools to provide additional capacity.

Responsible organisation: Kent County Council

Relationship to development: To provide additional secondary school places to meet the increased demand as a result of new development in Sevenoaks District.
Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC did not identify a need for additional secondary school places during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need over the period 2007-2026 (19 years). Cost estimated on the basis of the financial years 2014/15 to 2025/26 (12 years).

**Estimated cost:** Approximately £1,184,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026. KCC identify this requirement as resulting from new development.

**Funding gap:** Approximately £1,184,000

**Capacity expansion at secondary schools to provide for pupils that are forecast to be required to travel out of the District**

**Location:** Schools serving Sevenoaks District (Note: this need could be met through the provision of additional school places in Sevenoaks District, for example through provision of selective school places, or through increased school places in Tonbridge or Tunbridge Wells).

**Description:** Provision of additional or enlarged class rooms and associated facilities at secondary schools to provide additional capacity.

**Responsible organisation:** Kent County Council

**Relationship to development:** To provide additional secondary school places to meet the increased demand as a result of new development in Sevenoaks District.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC did not identify a need for additional secondary school places during the preparation of the Core Strategy. This requirement has been identified following a more detailed review of KCC infrastructure needs during the preparation of the CIL Charging Schedule.

**Estimated Timescale:** Identified need over the period 2007-2026 (19 years). Cost estimated on the basis of the financial years 2014/15 to 2025/26 (12 years).
**Estimated cost:** Approximately £1,226,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026. KCC identify this requirement as resulting from new development.

**Funding gap:** Approximately £1,226,000

**Adult Social Services – A Sevenoaks Local Hub**

**Location:** Sevenoaks Town

**Description:** Community resource from which a range of services can be delivered. Hubs may include an adult changing facility, assessment clinics and can be used for demonstrating assistive technology.

**Responsible organisation:** Kent County Council

**Relationship to development:** New development will result in additional demand upon social services that KCC is under a statutory obligation to meet but will not be able to fund without CIL funding.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** Yes. Hubs previously proposed for Sevenoaks, Swanley and Edenbridge (scheme 5.4).

**Estimated Timescale:** 2022-2026

**Estimated cost:** Approximately £357,565 (2022-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period. KCC identify this requirement as resulting from new development.

**Funding gap:** Approximately £357,565

**Adult Social Services – Co-location with health services at Sevenoaks Local Hub**

**Location:** Sevenoaks Town

**Description:** Co-location of social and health care staff to enable joint/single assessment, diagnosis and enablement services. This can be via new GP practices, new build health and social care centres.
Responsible organisation: Kent County Council

Relationship to development: New development will result in additional demand upon social services that KCC is under a statutory obligation to meet but will not be able to fund without CIL funding.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. However, a wider network of hubs and other care facilities (such as ‘training for life’ flats and supported living tenancies) was proposed.

Estimated Timescale: 2022-2026

Estimated cost: Approximately £58,763 (2022-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period. KCC identify this requirement as resulting from new development.

Funding gap: Approximately £58,763

Adult Social Services – Changing facilities at Sevenoaks Local Hub, White Oak and Edenbridge Gateway

Location: Sevenoaks District

Description: Adult changing facilities to enable full access to people with disabilities to key community buildings, such as libraries, gateways and leisure centres.

Responsible organisation: Kent County Council

Relationship to development: New development will result in additional demand upon social services that KCC is under a statutory obligation to meet but will not be able to fund without CIL funding. These facilities will enable people with disabilities to use facilities without such intensive levels of care.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. However, a wider network of hubs and other care facilities (such as ‘training for life’ flats and supported living tenancies) was proposed.

Estimated Timescale: 2022-2026
**Estimated cost:** Approximately £119,496 (2022-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period. KCC identify this requirement as resulting from new development.

**Funding gap:** Approximately £119,496

**Adult Social Services – Integrated Dementia Day Care Centre at Dunton Green**

**Location:** Dunton Green

**Description:** Community facility to deliver 24hr integrated dementia care service including ‘in-reach’ and ‘outreach’ and respite care. With the growing aging population it was seen as important to have a building/space from which dementia services could be provided.

**Responsible organisation:** Kent County Council

**Relationship to development:** New development will result in additional demand upon social services that KCC is under a statutory obligation to meet but will not be able to fund without CIL funding.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** Yes. Scheme 5.3.

**Estimated Timescale:** 2022-2026

**Estimated cost:** Approximately £267,314 (2022-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period. KCC identify this requirement as resulting from new development.

**Funding gap:** Approximately £267,314

**Adult Social Services - building community capacity and providing assistive technology**

**Location:** Sevenoaks District
Description: Enhancement of local and community facilities which are essential for statutory and voluntary organisations to deliver services. These can be used for outreach work such as advice and information surgeries and assessment clinics. Providing assistive technology would enable people to stay for longer in their own homes, promoting independence and reducing the need for dedicated care facilities.

Responsible organisation: Kent County Council

Relationship to development: To provide additional support to new clients of Adult Social Services moving into the District as a result of development.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

Estimated cost: Approximately £12,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: Approximately £12,000

Additional book stock for existing libraries

Location: Sevenoaks District

Description: Provision of additional books at existing libraries to ensure that they have sufficient stock per head of population.

Responsible organisation: Kent County Council

Relationship to development: To ensure that sufficient books per head of population are provided when local populations increase as a result of development.
Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the expansion of Sevenoaks, Swanley and Edenbridge libraries. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £51,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £51,000

**Extended opening hours and additional staff at Edenbridge Library**

**Location:** Edenbridge

**Description:** Extension of opening hours and additional staff for a 5 year period. This will allow KCC to provide additional access to library facilities without increasing the physical capacity of library buildings. After the 5 year period, it is expected that other forms of funding will cover the additional costs.

**Responsible organisation:** Kent County Council

**Relationship to development:** Provision of additional access to library facilities for new residents moving into the area as a result of new development.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the expansion of Sevenoaks, Swanley and Edenbridge libraries. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.
Estimated cost: Approximately £11,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: Approximately £11,000

Extended opening hours and additional staff at New Ash Green Library

Location: New Ash Green

Description: Extension of opening hours and additional staff for a 5 year period. This will allow KCC to provide additional access to library facilities without increasing the physical capacity of library buildings. After the 5 year period, it is expected that other forms of funding will cover the additional costs.

Responsible organisation: Kent County Council

Relationship to development: Provision of additional access to library facilities for new residents moving into the area as a result of new development.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the expansion of Sevenoaks, Swanley and Edenbridge libraries. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

Estimated cost: Approximately £18,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: Approximately £18,000

Extended opening hours and additional staff at Sevenoaks Library

Location: Sevenoaks Urban Area
Description: Extension of opening hours and additional staff for a 5 year period. This will allow KCC to provide additional access to library facilities without increasing the physical capacity of library buildings. After the 5 year period, it is expected that other forms of funding will cover the additional costs.

Responsible organisation: Kent County Council

Relationship to development: Provision of additional access to library facilities for new residents moving into the area as a result of new development.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the expansion of Sevenoaks, Swanley and Edenbridge libraries. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

Estimated cost: Approximately £118,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: Approximately £118,000

Extended opening hours and additional staff for the mobile library

Location: Sevenoaks District

Description: Extension of opening hours and additional staff for a 5 year period. This will allow KCC to provide additional access to library facilities without increasing the physical capacity of library buildings. After the 5 year period, it is expected that other forms of funding will cover the additional costs.

Responsible organisation: Kent County Council

Relationship to development: Provision of additional access to library facilities for new residents moving into the area as a result of new development.
Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the expansion of Sevenoaks, Swanley and Edenbridge libraries. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

Estimated cost: Approximately £1,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: Approximately £1,000

Additional equipment, staffing and class room hours at community education centres and through outreach

Location: Sevenoaks District

Description: Contribution towards the short term provision of additional facilities at existing adult education centres to provide additional capacity until classes become established.

Responsible organisation: Kent County Council

Relationship to development: Provision of additional access to community education for new residents moving into the area as a result of new development.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. KCC identified the need for more substantial facilities to be provided during the preparation of the Core Strategy, such as the relocation and expansion of Sevenoaks Adult Education District Centre and the development of new community hubs in Sevenoaks and Swanley. The need for these facilities has been identified following the outputs of KCC’s Integrated Infrastructure Funding Model, which seeks to identify innovative and pragmatic schemes to meet KCC’s infrastructure needs.

**Estimated cost:** Approximately £42,000 (2014-2026). The cost has been estimated using KCC’s Integrated Infrastructure Funding Model and takes account of the development forecast for this area in SDC’s housing trajectory.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £42,000

**Improvements and extensions to existing primary health care facilities in Sevenoaks District**

**Location:** Sevenoaks District. Location of facilities to be improved will depend on the location of development and the capacity of local facilities. The following facilities have been identified as potentially requiring improvements, following consideration by the NHS of SDC’s housing trajectory:

- Sevenoaks: Town Medical Centre;
- Swanley: A number of options identified, including Oaks and Cedars surgeries, Swanley;
- Edenbridge: A number of options identified, including Edenbridge Surgery;
- Rest of District:
  - Kent House Surgery (Longfield)
  - New Ash Green Surgery
  - Winterton Surgery (Westerham)

**Description:** Improvements and extensions to existing primary health care facilities to provide additional capacity in locations where development occurs.

**Responsible organisation:** NHS

**Relationship to development:** To provide additional primary care capacity to support local population increases in locations where development occurs. An assessment of existing capacity at existing surgeries has been provided by the NHS.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** The need for additional primary care capacity at certain locations in Sevenoaks District was identified during the preparation of the Core Strategy and reflected in the Infrastructure Delivery Plan Schedule (schemes 3.2, 3.3 and 3.4). The NHS has raised the potential need for additional improvements following consideration of SDC’s housing trajectory.
**Estimated Timescale:** Identified need from 2012 onwards. Cost estimated from 2014 onwards.

**Estimated cost:** Approximately £1,021,000 (2014-2026). The cost has been estimated by the NHS on the basis of a need for £360 per head and an average occupancy rate of 2.8 persons per new dwelling. The £360 per head figure is a standard assumption used by the NHS and is based on an estimated £3.6million being required to provide a 1,500m² facility to serve 10,000 patients. The 2.8 persons per household rate is the standard occupancy rate used by the NHS where unit sizes are not identified. It is based on the Homes and Communities Agency’s Household Projections. The NHS consider that this contribution would only cover part of the cost of providing additional capacity and would not address the revenue cost implications of development on the NHS.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £1,021,000

**Provision of new allotments in Sevenoaks town**

**Location:** Sevenoaks Town

**Description:** Provision of new allotments to meet an increased demand from new residents and to resolve existing shortages.

**Responsible organisation:** Sevenoaks Town Council

**Relationship to development:** Will resolve a forecast deficiency identified in the Open Space, Sport and Recreation Study. The scheme will allow sufficient access to new allotments for residents moving into new developments in Sevenoaks Urban Area.

**Included in Core Strategy Infrastructure Delivery Plan Schedule?** Yes (scheme 6.3). More information now provided on the likely cost of the scheme.

**Estimated Timescale:** 2012 onwards. CIL funding only likely to be available from 2014.

**Estimated cost:** Approximately £6,000.

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** Approximately £6,000
Redevelopment of Whiteoak Leisure Centre

Location: Swanley

Description: Redevelopment of Whiteoak Leisure Centre to provide modern sports and recreation facilities in Swanley.

Responsible organisation: Sevenoaks District Council

Relationship to development: Development in Swanley will place an increased demand on public leisure facilities. The Council considers that it may be necessary to redevelop Whiteoak Leisure Centre to provide suitable facilities for existing and new residents.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. Scheme has been identified following the adoption of the Core Strategy.

Estimated Timescale: No timetable for development of the scheme at present. It is anticipated that the SDC Cabinet will be asked to consider a proposal to undertake a viability/feasibility study of this scheme in early 2013.

Estimated cost: Approximately £7,000,000

Committed funding: It is estimated that approximately £3,500,000 may be received through the redevelopment of the remainder of the Whiteoak site, if a scheme is progressed.

Funding gap: Approximately £3,500,000

Community development work to bring old and new communities together

Location: Sevenoaks District

Description: SDC propose to employ an additional Community Development worker to try to integrate new residents into existing communities following development.

Responsible organisation: Sevenoaks District Council

Relationship to development: The scheme will help to ensure that development contributes towards the achievement of the priorities of the Sustainable Community Action Plan, in particular ‘helping communities to feel and be safe’ and ‘strong, active and involved communities’.
Consistent with Core Strategy Infrastructure Delivery Plan Schedule: No. This scheme has been identified following the preparation of the Core Strategy.

Estimated Timescale: 2014 - 2026

Estimated cost: £455,000 (based on a cost of £35,000 per year to appoint a Community Development worker).

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: £455,000

Outdoor Green Gyms in Sevenoaks, Swanley and Edenbridge

Location: Sevenoaks, Swanley and Edenbridge are assumed as the most likely locations as they are the main locations for new development.

Description: An outdoor gym to offer increased opportunities to exercise for people of different ages and abilities.

Responsible organisation: Sevenoaks District Council (and possibly town and parish councils).

Relationship to development: Whilst not specifically identified as a sub-category of open space in the Open Space, Sport and Recreation Study, the green gyms will contribute towards resolving forecast deficiencies in play areas, outdoor sports facilities and parks. A forecast deficiency in at least one of these types of open space was identified in Sevenoaks Urban Area, Swanley and Edenbridge in the Open Space, Sport and Recreation Study.

Consistent with Core Strategy Infrastructure Delivery Plan Schedule: Schemes not specifically identified. However, the scheme will contribute towards improved open space in Swanley (scheme 6.1) and increased provision of children’s play areas in other parts of the District (scheme 6.2).

Estimated Timescale: 2014 - 2026

Estimated cost: £165,000 (based on an estimated £55,000 to install a facility in Sevenoaks, Swanley and Edenbridge)

Committed funding: No funding is currently committed for the period 2014-2026.

Funding gap: £165,000
Replacement or additional youth zone van

**Location:** Sevenoaks District

**Description:** An additional or replacement youth service van and funds to cover the ongoing costs of running the van and staffing.

**Responsible organisation:** Sevenoaks District Council

**Relationship to development:** The scheme will ensure that SDC can continue to provide sufficient services to young people in the District. This will contribute towards Sustainable Community Action Plan priorities of ‘a better start for our children’ and ‘improve the lives of young people in the District’.

**Consistent with Core Strategy Infrastructure Delivery Plan Schedule:** No. The scheme has been identified following the publication of the Core Strategy.

**Estimated Timescale:** 2014 - 2026

**Estimated cost:** £282,000 (based on £35,000 for a new van, £9,000 per annum ongoing costs and £10,000 casual staffing)

**Committed funding:** No funding is currently committed for the period 2014-2026.

**Funding gap:** £282,000
